Summary

Senior fullstack engineer with 10+ years building responsive, accessible web and mobile products, with deep frontend expertise in React, Next.js, React Native, and TypeScript. Leads and mentors engineers while owning technical direction and end-to-end delivery across client and in-house products.

Relevant Experience

Senior Fullstack Developer (Frontend focused) · **Authic Labs** 2023 — 2025 · Netherlands (Remote)

- Owned end-to-end delivery of client applications and the company's core product, driving frontend architecture and technical direction from requirements through launch with Next.js, Nuxt.js, and Node.js.
- Led a team of 5 engineers — setting frontend standards, running code reviews, and mentoring 3 junior developers — lifting delivery velocity by 25%.
- Rebuilt core user-facing flows into high-performance experiences — cutting page-load time by 40% — that grew engagement and contributed to a ~30% increase in profits.

Fullstack Developer · **Crastonic** 2022 — 2023 · Japan (Remote)

- Architected and shipped end-to-end MERN applications for enterprise clients, from requirements and mock-ups to production release.
- Introduced reusable component patterns and CI practices that reduced feature delivery time by 30% across the team.
- Partnered directly with clients to translate business goals into scalable technical solutions.

Senior Web Developer · **Hypernova Systems** 2021 — 2022 · Goa (Remote)

- Owned full-stack workstreams delivering software for 8 industry clients on time within a distributed agile team.
- Designed and scaled highly available, real-time, secure systems serving 50k+ users worldwide.
- Mentored 3 developers and established review standards adopted team-wide.

Senior Frontend Developer (Front-end Lead) · **Di'Vision Technologies** 2020 — 2021 · Trichy (Remote)

- Led front-end architecture for a product platform, defining component structure and standards for a team of 4.
- Delivered interactive interfaces that lifted traffic and page views by 35% and improved user retention.
- Drove performance and accessibility improvements, cutting load time by 30%.

Software Engineer · **Purview Services** 2018 — 2020 · Bangalore

- Partnered with business analysts to shape product strategy, content, and features from client goals.
- Built a reusable ReactJS component library (Bit, Storybook) and multiple Redux applications adopted across 6 projects.
- Established fully automated CI/CD pipelines, reducing deployment time by 50%.

Web Developer → Senior Web Developer · **Oligarcy Software Services** 2014 — 2018 · Bangalore

- Promoted to senior; built semantic, accessible HTML5/CSS from design mock-ups and optimized apps for speed and scalability (45% faster load).

Skills

Programming Languages

JavaScript, TypeScript, HTML5, CSS3

Libraries & Frameworks

React, React Native, Next.js, Nuxt.js, Gatsby, Angular, Node.js, Redux, GraphQL, Web3, Ethers.js

Tools & Platforms

Git, GitHub, GitLab, Bitbucket, AWS, Azure, Firebase, Storybook, WordPress, Shopify, CI/CD, TDD

Databases

MySQL, MongoDB, NoSQL

Highlights

Responsive Web Design

Delivers responsive, cross-browser interfaces with clean, well-documented markup.

Agile Delivery

Agile (Scrum) and Test-Driven Development across distributed remote teams.

Project Ownership

Owens estimates, plans, schedules, and resource allocation to hit delivery targets.

Education

CARE Group of Institutions, Trichy

B.E., Electrical & Electronics Engineering
2010 — 2014

Interests

Application development, problem solving, cycling, fitness, reading, volunteering.
Languages: English, Tamil.
